Dear Colleagues,

It is my great pleasure to invite you to attend the **22nd Annual Meeting of the Lebanese Ophthalmological Society** which will be held at the **Four Seasons Hotel, Beirut on May 30-31, 2014.**

The meeting is designed to capture the multiple facets in our specialty and aims at discussing the latest updates and advances that will contribute to promoting clinical practices and quality of care. Distinguished physicians from all over the world will join to share their knowledge and experiences with us.

The scientific forum will include two full days of scientific presentations and symposia, covering Glaucoma, Anterior Segment, and Refractive Surgery. In addition, a session of Pediatric Ophthalmology and Neuro-ophthalmology will be held in collaboration with the Ophthalmology department at the American University of Beirut. The 2014 meeting will also witness two new scientific events for the first time, the 2nd Mansour Armaly lecture will be presented by a distinguished international speaker, and a Poster competition for residents and fellows.

A large exhibition of all major companies that supply ophthalmic equipment and medications will be on display during the two days; and I take this opportunity to thank them all for their continuous support to our field.

Looking forward to welcoming you among us in a productive and fruitful meeting!
