

USC ROSKI EYE INSTITUTE - Doctors in Top 100 Influencers in Ophthalmology Around the World

April 27, 2016 - *The Ophthalmologist*, an international publication available in print and on-line that integrates topical news with practical advice for ophthalmologists, recently published their second [Top 100 "Power List."](#) The Power List is compiled from the magazine's global readership nominations of those they believe to be the most influential people in ophthalmology. Number eight on the list is [Carmen A. Puliafito, MD, MBA](#), professor of ophthalmology, [USC Gayle and Edward Roski Eye Institute](#). Also included are [Mark S. Humayun, MD, PhD](#), Cornelius J. Pings Chair in Biomedical Sciences, professor of ophthalmology, biomedical engineering and cell and neurobiology, director of the Institute for Biomedical Therapeutics and co-director of the USC Roski Eye Institute, and [Farhad Hafezi, MD, PhD](#), clinical professor of ophthalmology, USC Roski Eye Institute and medical director, The ELZA Institute, Zürich.

The Ophthalmologist editor Mark Hillen cites the far-reaching effect of the Power List: "...if a journalist or news researcher is making inquiries into something eye-related, the Power List pops up at the top of their search results. This means that not only are the Power Listees having their achievements celebrated by ophthalmologists, but often the public too."

Congratulations to Drs. Puliafito, Humayun and Hafezi for being included in this prestigious list and thank you to all the physicians, researchers and educators at the USC Roski Eye who strive every day to transform the lives of people facing loss of vision or blindness.

[Carmen A. Puliafito, MD, MBA](#)

[Mark S. Humayun, MD, PhD](#)

[Farhad Hafezi, MD, PhD](#)
